

Executive Team Analytics

Building and developing high performing Executive Leadership Teams is essential to organizational success. Ensuring you have a deep understanding of **each individual's strengths and development opportunities**, while at the same time analyzing how disparate, **counter-productive behaviors** interact within the group, is crucial to implementing an **action plan** that will eliminate potential anchors on performance and drive team effectiveness and business results.

Harrison Assessments Analytics employ a cutting edge, talent management technology that provides insights for executive development. Break the cycle of depending on unreliable gut feelings and utilize **quantifiable behavioral data** to determine team capabilities. Create a **Succession Planning strategy** for identifying high-potential leaders within your organization.

Why Choose Harrison for your Executive Team Development?

Based on twelve essential leadership behavioral competencies, **Paradox Mastery Technology** is unique in its ability to display whether strong traits are really strengths or whether they are potential derailers. To truly develop performance, individuals must first **understand their own behavioral preferences**; recognize and build on their behavioral strengths, while acknowledging the perception of behavioral weaknesses as they relate to a leadership role.

Respectful Candor (Communication)

The tendency to communicate in a respectful and straightforward manner

Executive Team Analytics

Organizational Analytics

Top down, bottom up or any combination in between, segment and visualize your organizational data in ways that make it **easy to understand** where the **opportunities and challenges** lie. Dashboards are available for analysis of Employee Engagement, Behavioral Competencies, and Paradox Mastery. Harrison Assessments Analytics provides a **discovery tool** like no other in the industry.

Why Choose Harrison for your Executive Team Development?
